furniture for the way you worship

# TABLE TOPS

## Laminate Surfaces

Our wide selection of laminates lets you choose the Sauder Worship Seating® table top color and style that best reflects your interior environment needs. Shown are several of the more popular colors

in both laminates and soft edges (SSE). Laminates from Formica®, Wilsonart®, Nevamar®, and Pionite® are standard, however any manufacturer can be specified.

## Wood Edge Styles

### Framed Wood Edge

Select, clear grade, 1/2" maple edging bonded flush to laminate surface with a highly water-resistant, thermoset, urea resin glue. Wood edging mitered on 45° angles on ends for square fit at corners. Eased corners standard on all rectangular tops. Edging for round tops cut from 1/4" thick solid planks – minimum five pieces per top – to ensure structural integrity and minimize grain checking. Oak edge available upon request.

### Half Round Wood Edge

Post-laminated 1/2" half-round wood edge banded to core surface with highly water resistant thermoset glue. Laminate is overlaid up to the exposed radius edge.

### Bullnose Wood Edge

Select clear grade 1/4" solid maple bullnose edging. Eased corners standard on all rectangular tops. Edging corners standard on all rectangular tops. Edging for round tops cut from 1/4" thick solid oak planks – minimum five pieces per top – to ensure structural integrity and minimize grain checking. Oak edge available upon request.

### Laminated Hardwood Edge

Combines the strength and beauty of wood with 21 plies of laminated hardwood creating a truly warm, unique look. 13 ply tops are also available for coffee, end and corner tables. Top can also be laminated with a choice of colors to match any interior decor.

## Soft Edge

### Vinyl Bumper

Handsome and durable, Sauder Worship Seating vinyl bumper edges come standard in black, brown, grey, almond or white. The 1/4" T-molding is pressure-driven into the vertical core edges, then anchored with spot nails. The hand-trimming vinyl bumper edge conforms to the 7/8" half round.

### SSE Edges

Feels soft, is strong, the SSE actually makes your table tougher! The SSE is semi-soft (Shore A 75 durometer) urethane molded onto premium 45-lb. density particle board. The SSE has color running completely through it and contains an added ultraviolet inhibitor to resist fading. It's self-sealing and resists acids. If your table specifications call for extra toughness and great looks too, specify the SSE edge. Available in extended bullnose, square edge and raised edge drip-free specification.

## Surface Edge

### Self Edge

Match the edge with your top. The self edge duplicates the laminate color or wood grain pattern of your Sauder Worship table top. Routed and hand filed for a smooth, custom crafted finish.

## Solid Surface Tops

Reinforced solid surface material compression molded in one piece for superior heat, stain, and impact resistance over fabricated sheet products. Finished to 1/2" thick. Available in several square, rectangle, and round sizes with either a round or bevel edge. Contact your local Sauder Worship Sales Consultant for available colors.

## Construction Specifications

Core: Premium, 45 lb. density particle board, finishing to 1/8". Laminate: horizontal grade, .04" thick with a phenolic-impregnated backing laminate of .02". Overall top thickness: 1/4".

## Level Locks

Sauder Worship level lock #1052000 allows two or more tables to be aligned and connected, providing a flat, more stable table top surface. Level locks add a new dimension to table functionality by increasing their versatility and applications. To order, specify as an accessory with your table top.

## Table Top Shapes

Sauder Worship table tops come in several standard shapes, including round, square, rectangle, trapezoid, boat, oval, and racetrack.

## Trapezoid Table Tops

The Sauder Worship trapezoid table top is interior design geometry at its best! You can configure the trapezoid table in a variety of combinations that best suit the needs of changing interior environments. Their unique combination of form and function make them especially useful in education applications. Contact your Sauder Worship Sales Consultant for details.

# STANDARD EDGE STYLE

Dining tables are available with a selection of standard surface/edge styles including soft edges, wood finishes, and a wide selection of laminates.

PlyLok Side Chairs, 4500 Series End Tables

## Top / Surface Material

Substrate is 1/4" thick 45-lb. per cubic foot particleboard covered with a high-pressure laminate (specified by the customer) on the top surface and a laminate backer on the bottom surface.

## Edge

Edge material is a semi-soft (75 Shore A durometer) elastomer urethane that is ultra violet stable.

# SOFT EDGE STYLES

## Soft Edge Styles

SSE table tops are an attractive and practical solution. The semi-soft molded urethane edge offers a great look with outstanding durability, and is available in several standard edge profiles and colors. Combined with hundreds of commercially available high-pressure laminates, SSE table tops top off any table with lasting style!

## Warranty

Sauder Worship Seating® Soft Edge (SSE) table tops are guaranteed against defect in material and workmanship for a period of 10-years from date of receipt of product. Visit [sauderworship.com](http://sauderworship.com) or contact your local sales consultant for more information.

# WOOD TABLE LEGS AND BASES

The enduring warmth of wood is fully expressed in Sauder Worship Seating® wood table legs and bases. Beautifully finished plybent/laminate construction of select northern hardwoods assures both appearance and performance in equal measure. Count on Sauder Worship tables to stand up to the job with style.

Wood Corner Leg Base with Braces and Half Round Wood Edge Table Top

## Corner Leg Base

Timeless corner leg design available with or without braces. 16-plys of 1/16" hardwood laminations with interior miter-lock joint construction for exceptional stability. Available in all Sauder Worship standard finishes, plus match finishes. 27 3/4" standard height.

## Full Pedestal Base

The warm elegance of wood with the strength of steel. For tables up to 60" in diameter. 16-plys of 1/16" hardwood laminations conceals a 3 1/2" square steel tube with braces of 11-plys for added stability. Available in all Sauder Worship standard finishes, plus match finish. 27 3/4" standard height.

Wood Full Pedestal Base with Bullnose Wood Edge Table Top

## Half Pedestal Base

Combination laminated hardwood and steel tube construction similar to full pedestal bases. Ideal for longer tables in dining, study areas, and conference rooms. Optional support trestle available for added stability. Available in all Sauder Worship standard finishes, plus match finishes. 27 3/4" standard height.

Sauder Worship Seating dining tables provide a practical solution to complement any decor. Equipped with multiple table tops and bases in a variety of materials and styles, the tables collections offer endless combinations. For more information contact a Sauder Worship sales consultant or visit [sauderworship.com](http://sauderworship.com).

Wood Half Pedestal Base with Half Round Wood Edge Table Top

## Flip Top Option

Sauder Worship flip top #1059999 is a great space-saving solution.

A simple and convenient lever allows the table top to be quickly moved from a horizontal to a vertical position for efficient storage. Available as an option on all standard tops up to 54" wide.

Sauder Worship Seating® café and dining tables offer a wide variety of sizes, shapes and tops for worship gathering spaces. Selecting the right table for you dining and café area helps define the space. Tables provide a place for people to gather together and connect before and after the service or during the week on special projects.
